Dear Public Service Commission,

Duke should quit investing in dirty, old energy like coal and nuclear, and actually invest in the cheaper renewable technologies its executives claim to support. I want the Carolinas to be more energy efficient and powered by local wind & solar that will employ thousands of Carolinians.

Sincerely,

Marty Barber

I want the Carolinas to be more energy efficient and powered by local wind & solar that will employ thousands of Carolinians. You have a responsibility to provide fair rates to residents and start investing in energy that will help the planet, not continue to harm it. Break free of the dirty energy chains...
